

# SPANISH WAR VETS PLAN ACTIVE YEAR

## Reception to State Department Commander to Be Held Here

The A. G. Hammond camp, United Spanish War Veterans, is planning an active season's work for the coming fall and winter months. At a meeting of the camp to be held at the state armory on Arch street at 8 o'clock Wednesday evening, plans will be arranged for the reception of the department commander, Charles N. Burdick, of Norwich, to be held in New Britain on Wednesday, Oct. 13. Each member of the camp has been especially urged to attend the meeting.

### Have Bowling League.

Bowling will again occupy the attention of several members of the camp this year and the local group will start their season at the Casino alleys on Friday night at 8 o'clock. There are four teams, Infantry, Cavalry, Artillery and Marines, to participate in the league. Prizes will be awarded to the team winning the series, which will last until the latter part of December, and also for the high individual single as well as the high team single. The local camp will later enter the race for the state cup.

### Serpents Also Active.

San Mateo Lair, Military Order of the Serpents, is planning for a crawl to be held the first week in November. It is also being arranged by members of the lair to have the Grand convocation of all Connecticut lairs in New Britain some time during the month of January or February.

### Auxiliary Also Busy.

The A. G. Hammond camp auxiliary, which is said to be one of the largest and most active in the state, has plans completed for several meetings during the year at which time entertainments will be provided, and lectures heard.

# NEW GREEK GOVT. TO GET RECOGNITION

## Athens Believes That Britain, Italy and Belgium Will Acknowledge New Regime.

Athens, Oct. 3.—(By Associated Press).—The revolutionary committee continues all powerful and there are daily evidences of stern martial law, armed patrols slowly marching through the streets.

General indications are that the Venizelists are waiting to see how the internal situation develops, preferring to remain outside the government until the Venizelist party is definitely summoned to power at the national elections to be held November 8.

The British, Italian and Belgium diplomatic representatives have been assigned the visitors' book at the royal palace and the Greeks interpret this as the forerunner of actual recognition of the government set up by the revolutionists.

The entente countries and America did not recognize King Constantine. A recently posted announcement at the central telegraph station informs the foreign press correspondent that the censorship of their telegrams will henceforth operate at the press bureau of the foreign office. This is signed "by order of the committee of revolution."

The turn of the political wheel has brought a Greek who is well known in America and whose mother is an American into the important position of director of the press bureau and chief censor. This is F. Demetrios Kalopothakis, who was graduated from Harvard in 1888, and for seven years was connected with the American legation here.

The former premiers now under arrest are being removed to an island near Piræus, where they will be released on parole under military supervision.

### COTTON GIN REPORT.

Production Up to Sept. 25 of This Year Shows Gain Over Year Ago.

Washington, Oct. 3.—Cotton ginned prior to September 25 totalled 3,853,006 bales, including 76,168 round bales, counted as half bales; 1,660 bales of American Egyptian and 922

bales of Sea Island, the census bureau announced today.

To September 25 last year 2,920,332 bales were ginned.

Cotton production this year was forecast at 10,135,000 equivalent 500 pounds bales by the department of agriculture today in its final forecast of the season, based on the condition of the crop September 25, which was 106 per cent of normal, indicating a yield of 13.92 pounds of lint per acre.

# TROOPS AND FIREMEN PROTECTING NEGROES

## Montgomery, Ala. Scene of Feroocious Race Rioting Following Mur- der of White Man.

Montgomery, Ala., Oct. 3.—One negro was killed, a score attacked on street cars and one white man shot in disorders here last night and early today following the arrest of Joe Terrell, negro, charged with the murder of George Wilson, a game warden, who was shot Saturday night while searching for a negro who was alleged to have killed Albert Samson, a city policeman.

Judge Leon McCord of the circuit court ordered the grand jury called into special session to investigate the killing of Wilson. Terrell, according to the police, has confessed that he shot the game warden. Two negro men and two negro women, reported to have been with Terrell when Wilson was shot, are being held as witnesses.

Three companies of National Guardsmen were ordered to the jail when the mob began increasing its numbers last night and later the fire department was called upon to disperse the crowd by using the fire hose. The jail was peppered with bullets, but the soldiers did not return the fire of the mob.

John Brown, a negro railroad fireman, was reported to have been lynched but early today it was learned that he had been removed from his home by a masked party at midnight and questioned about the escape of Jim Glenn, the negro wanted in connection with the killing of the policeman. Brown told the party he knew nothing of the escape and his story was substantiated by several white men. He was released.

The mob dispersed and military officials reported no further trouble was expected.

# PORT HEARING TODAY.

## Interstate Commerce Commission Ex- aminer Takes Up Protests.

Boston, Oct. 3.—Robert E. Quirk, chief examiner of the interstate commerce commission, began hearings at the state house today on the question of New England port differentials. The hearings which are expected to continue throughout the week were requested by New England chambers of commerce and other organizations which contend that present differentials on western shipments discriminate against New England ports, particularly Boston, in favor of Philadelphia, Baltimore and other south Atlantic ports.

# AVIATOR RECOVERING

## Army Flier Loses Landing Gear and Crashes To Earth.

Mount Clemens, Mich., Oct. 3.—Captain Bert E. Skeel of the 24th squadron of the army aero first pursuit group, was recovering today from injuries sustained yesterday when he landed without a landing gear on Selfridge field in an airplane he had driven in a test flight, preparatory to the Pulitzer air race, October 14.

As he rose for his trial spin, the wheels of his landing gear fell from the machine. Unaware of the accident although other fliers made frantic efforts to warn him of his danger, Captain Skeel circled over Lake St. Clair for half an hour then returned to the field and crashed in landing.

Use of gunpowder for firearms was discovered by a German monk, Berthold Schwartz, about 1300 A. D.

# Kemal Pasha In The Field

First picture of Mustapha Kemal Pasha, victorious Turkish leader, mounted and directing his troops as they drive the Greeks from the whole coast of Asia Minor and menace Constantinople.

# HARD COAL MINERS HAVE ENOUGH MONEY

## Prolonged Strike Has Not Caused Suffering for Lack of Funds.

### Inquiry Shows.

Philadelphia, Pa., Oct. 3.—Despite the fact that the anthracite coal miners have just terminated the longest strike in their history, it having lasted just four days longer than the big strike of 1902, business conditions in the hard coal regions of Pennsylvania are in better shape today than they ever were following a cessation of the chief and in most cases sole industry of that section.

In contrast to strikes of previous years where miners had little or no money and as a result were kept from going hungry by the family grocers, the men who work in the coal mines this time all had savings laid by from their war wages and were enabled to do business almost on a cash basis.

In Mount Carmel, Pa., a banker

stated that the strike has made little if any impression on business in general. Where heretofore long strikes have meant bankruptcy and heavy losses for hundreds of merchants, this time the striking miners were not forced to ask for additional credit.

Another feeling which seems to be growing daily is the general impression that the days of long strikes in the anthracite coal fields are over. Public sentiment, while sympathizing with the miners, is turning towards more peaceful ways of settling industrial disputes.

### CONSTANTINE AT SICILY.

Palermo, Sicily, Oct. 3 (By Associated Press).—Former King Constantine of Greece, going into exile after his second abdication, arrived here at 11 o'clock this morning with the members of his party on board the Greek steamship Patria.

The leaves of the Madras water lilies will readily support the weight of a child.

# BRITISH SPECULATE ON TODAY'S MEETING

## Press Devotes Much Space to Review of Situation And Possible Developments.

London, Oct. 3.—(By Associated Press).—Every London newspaper devotes its principal columns to the Mudania conference today.

It is not definitely known how many delegates will attend the conference but it is stated from some sources that in addition to the allied and Turkish generals the conference will include M. Franklin-Bouillon and two Greek military representatives.

Estimates of the probable duration of the meeting differ considerably, some believing it may be over in a few hours and others suggesting that days may elapse before a settlement is reached clearing the way for a subsequent peace conference.

In anti-Greek quarters the activities of former Premier Venizelos in Paris and London continued to be viewed with the greatest suspicion.

The Daily Express says M. Venizelos has advised the revolutionary government in Athens to agree in principle to the evacuation of eastern Thrace but to tell the allies that Greece will not evacuate the territory until the powers have decided she shall do so as part of the final peace terms.

The report that the Washington administration is being pressed to intervene in the Near Eastern situation is given conspicuous publicity.

# LECTURE ON NUTRITION

## Public Invited To Hear Discussion, Il- lustrated, At Hartford.

Dr. William R. P. Emerson of Boston, who is conducting an institute on the nutritional problems of children, under the auspices of the Hartford Tuberculosis society, will give an illustrated lecture Wednesday at 8 p. m., at Center Church house, Hartford. This lecture is especially for parents and is open to the public.

# Fashion and the Cantilever Agree

Fashion is the ficklest of masters. A while ago women considered others frumps who didn't lace until they achieved waists like an hour-glass. And more recently, out went the spindle heel and the pointed toe that so tortured women's feet. In the Cantilever Shoe you will find the trim style of the sports shoe backed by the most modern details of foot-comfort and foot-efficiency.

Its natural sole-line, its stylish rounded toe and lower heel fit the foot happily—your foot rejoices in a shoe made to fit it, doesn't grieve and complain as in footwear that forces your foot to do all the fitting. And the Cantilever flexible arch, supple like your own arch, eases every step, frees your muscles for the strengthening exercise that corrects and prevents arch troubles, and secures for you the many benefits that come from improved circulation—greater vigor, spirits and color.

Come and inspect the excellent workmanship entering into the making of the Cantilever Shoe. See how trim it looks and how splendidly it fits.
